This Manual, which has been revised in its most important parts by the author of the "Public School Latin Primer," as well as by several distinguished Scottish Teachers, is designed to assist, in connection with the Primer or the Edinburgh Academy Rudiments, in the work of preparation for the Scottish Universities. It differs from other books of the same kind chiefly in being more compendious, and thus adapted to a less protracted course of instruction than that which they contemplate.

The longer Exercises embrace a selection of University competition and graduation papers.
